

# Atlas Of Relations Between Climatic Parameters And Distributions Of Important Trees And Shrubs In North America: Additional Conifers, Hardwoods, And Monocots

by Robert Stephen Thompson United States Geological Survey (U.S.)

Quantitative estimation of bioclimatic parameters from presence . The age uncertainty for this sequence lies between ~0.5 and ~1 Ma Thompson, R. S., Anderson, K. H. and Bartlein, P. J.: Atlas of relations between climatic parameters and distributions of . 25 distributions of important trees and shrubs in North America: additional conifers, hardwoods, and monocots, U.S. Geological. Atlas of relations between climatic parameters and distributions of . List of taxa where the North American maps were prTOduced by merging . Additional support was provided by National Science Foundation grant Little, E.L, Jr., 1971, Atlas of United States trees, volume 1, conifers and important hardwoods: Atlas of relations between climatic parameters and distributions of important Search Results - ScienceBase - ScienceBase-Catalog Atlas of relations between climatic parameters and distributions of important trees and shrubs in North America—Additional conifers, hardwoods, and monocots. Atlas of relations between climatic parameters and distributions of . Atlas of relations between climatic parameters and distributions of important trees and shrubs in North America : hardwoods. Atlas of relations between climatic parameters and distributions of . The fossil record of Araceae is expanded by three new leaf species from the Upper Cretaceous and Paleogene of North. America: 1) Orontium wolfei BOGNER, Atlas of relations between climatic parameters and distributions of . Atlas of relations between climatic parameters and distributions of important trees and shrubs in North America. [Robert Stephen Thompson; Katherine H C. Additional conifers, hardwoods, and monocots. Series Title: U.S. Geological Survey Late Cainozoic Floras of Iceland: 15 Million Years of Vegetation . - Google Books Result Items 301 - 350 . Your Search: (SUBJECT=North America.). 344, Atlas of relations between climatic parameters and distributions of important trees and shrubs in North America, 1999 parameters and distributions of important trees and shrubs in North America : additional conifers, hardwoods, and monocots /, 2001. hauschildt - Catalog of Government Publications - US Government .
